AIR SHOWER

CLEAN ENTRY FOR A CLEANER TOMORROW

Our Air Shower systems are designed to remove dust and particulate contamination from personnel and materials before entering cleanroom areas. Using high-velocity HEPA filtered air jets, the system effectively blows off contaminants, ensuring a clean and controlled environment.

- Effective Particle Removal
- Maintains Cleanroom Integrity
- Reliable & Low Maintenance
- Energy Efficient Operation
- Customizable Designs
- Compliant with International Standards

High Velocity Air Jets
Removes particles effectively

HEPA Filtration
Clean air with 99.99% efficiency (at 0.3 micron)

Interlock System
Ensures safe and controlled entry

Stainless Steel Construction
Durable, corrosion resistant and hygienic

Available in Various Sizes
Standard and customized options

A Cleaner Entry | A Safer Environment | A Healthier Tomorrow
