CLEANROOM DOORS

Seamless Access. Controlled Environment.

Our cleanroom doors are designed to provide airtight sealing, prevent contamination and ensure smooth movement of personnel and materials between cleanroom zones. Built with high-quality materials and precision engineering, these doors meet the strict requirements of pharmaceutical, biotech and cleanroom facilities.

KEY FEATURES

Excellent Airtightness
Prevents air leakage and maintains cleanroom pressure.

Durable Construction
Made from high-grade materials for long service life.

Smooth Operation
Precision hinges and high-quality hardware for effortless movement.

Hygienic Design
Non-porous and easy-to-clean surfaces reduce contamination risk.

Customizable Options
Available in various sizes, finishes and configurations as per your requirement.

TYPES OF CLEANROOM DOORS

- **Single Leaf Door**
  Ideal for standard cleanroom entry points.
- **Double Leaf Door**
  Suitable for wider passages and high-traffic areas.
- **Sliding Door**
  Space-saving solution for smooth and efficient movement.
- **Automatic Door**
  Touch-free operation for enhanced hygiene and convenience.
- **Vision Panel Door**
  With clear or tinted glass for better visibility.
- **Fire Rated Door**
  Provides additional safety for critical environments.
- **Hermetic Door**
  Designed for high-containment and ultra-clean applications.
